Body Editor by Ewa Doroszenko

FEATURE

Inspired by the failures and bugs in the popular beauty apps, where unnatural bodies get distorted, Warsaw-based artist **Ewa Doroszenko** used photography alongside digital tools to create an expressive project Body Editor that is both a critique and a celebration of the ongoing progress in contemporary technology and culture. Can the game in which your body is a battleground be truly empowering? The phrase from Barbara Kruger's iconic work has yet as much resonance today as it did more than a quarter of a century ago.
